Coronado Utilities, Inc.

Division:

Sewer-water

Contact Name:

Jason Williamson

Contact Phone: (303) 333-1250Nature of Complaint:

Received e-mail from Mr. Joseph G Krouse.

To whom it may concern,

The following document is stating my opposition to the Application of Coronado Utilities, Inc. for a Certificate of Convenience and Necessity to Provide Wastewater Service in Pinal County and Application for Authority to Issue Long Term Debt.

Docket No. SW-04305A-05-0086

Docket No. SW-04305A-05-0087

My name is Joseph G. Krouse. I reside at 129 6th Avenue in San Manuel, AZ 85631.

My phone number is: (520)385-4839

I am writing this letter to oppose Coronado Utilities, Inc. proposed rate increase from \$48.00 per year to approximately \$540.00 per year.

I cannot understand what could possibly merit such an increase. The increased rate would be approximately 3 times the amount of anywhere in the surrounding area. I ask you at the Corporation Commission as our trusted officials: How can Coronado Utilities, Inc. possibly justify this unreasonable rate increase?

Coronado Utilities is trying to base their rates on our individual water consumption. Well a lot of people (including me) water their yards and wash their cars at their house. This water goes back into the water table and is NOT PROCESSED BY THEIR FACILITY. This accounts for thousands if not millions of gallons of water that they are NOT PROCESSING.

Why should we have to pay them for all of the water they are not servicing?

ARIZONA CORPORATION COMMISSION

UTILITY COMPLAINT FORM

Most of the people in San Manuel are on a Limited Income since BHP Copper Company closed down the community's main source of revenue.

I, personally, am retired and was recently diagnosed with cancer and my wife only works part-time. So, it would be an extreme hardship for us to have to pay out all of that extra money.

I ask you to please be fair in your decision. I know that you will.

Thank you very much for your time and well thought out decision.

Sincerely,

Joseph G. Krouse
